TRADICIONALS RITUALS

TEMAZCAL TRADICIONAL

The Temazcal is a traditional steam bath that has been passed down from our Mayan ancestors and can be used to treat ailments ranging from anxiety and depression to rheumatic and circulatory disease.

The mud-and-clay hut features volcanic stones that, when sprinkled with healing plant waters, cleanse the body and mind and empty the heart of anguish.

A ceremony of song, music, and harmony accompanies the ritual.

YENEKAMU RITUAL

In ancient times, the Pericú people (the aboriginal inhabitants of Baja) used the term “yenekamu” to refer to encounters between two waters. Immerse yourself in the healing waters of our Ojo de Agua spa and feel your tension melt away.

After, enjoy a relaxing massage with hot stones, a foot massage, and a hip adjustment—an ancestral technique that realigns the spine, eases back pain, and harmonizes negative emotions.

NIPARAJA Y ANAJICONDI

Inspired by the legend of Niparaja, creator of heaven and earth, and Anajicondi, the goddess of beauty, this ritual was designed to strengthen the bond between lovers.

The couple's treatment starts with an energetic cleansing, followed by a full-body exfoliation, and an indulgent massage that uses the damiana herb, a natural aphrodisiac.

The treatment ends with a facial cleansing that will make you and your partner feel renewed and connected.
